

**Amendments to the claims:**

**1. (currently amended) A bookmark comprising:**

a bookmark body (20) including a bookmark clip (24) that is mounted on the bookmark body (20) to clamp the cover of a book or at least one content page of the book;

wherein the bookmark clip (24) has a width that is substantially equal to that of the bookmark body (20);

wherein the bookmark body (20) has a protective surface (21) on which the bookmark clip (24) is mounted, has a bendable folding surface (23) extending from the protective surface (21), and has a folding sheet (22) extending from the folding surface (23), thereby when bendable folding surface (23) is bent over one or more pages of the book, the folding sheet (22) is inserted between two inner pages of the book; and

wherein the bookmark body is a plastic bag (40), wherein the protective surface (41) is disposed at one end of the plastic bag (40), the folding sheet (42) is disposed at the other end of the plastic bag (40), and the folding surface (43) is formed on the plastic bag (40) between the protective surface (41) and the folding sheet (42).

**2. (previously presented) The bookmark according to claim 1, wherein the bookmark clip (24) is made of plastic, metal or other resilient material.**

**3-5. (canceled)**

**6. (previously presented) The bookmark according to claim 1, wherein the folding surface (23) includes a plurality of parallel folding lines or a groove.**

**7-10. (canceled)**

**11. (previously presented) The bookmark according to claim 1, wherein the bookmark clip is adhesively mounted on the bookmark body (20).**
